LARGE GENERAL SERVICE CONTRACT SCHEDULE

AVAILABILITY

Service under this schedule is available to all commercial and industrial customers who have executed a long term contract, have a minimum monthly demand of 6,000 kW and a minimum monthly consumption of 4,032,000 kWh. The average monthly load factor shall also be no less than 85%. Failure to maintain these minimum requirements is covered by Section 1.4 of this Agreement. Energy Only rate component is subject to long-term energy supply contract procured per section 1.5 of this Agreement at time of contract execution.

BASE RATE - APPLIED MONTHLY

Customer Charge	$500.00
	Consumption
	$/kWh
Energy Only	0.128430 *(Nov-Feb effective 11/1/2026 thru 2/28/2027)*
	0.060950 *(Mar-Oct, effective 3/1/2027 through 10/31/2027)*
Carbon-Free	0.003000
Energy Other	0.017449
Distribution	0.016165
Transmission	0.01794 *(component will be adjusted annually in 3rd qtr for following year)*
Renewable Energy	0.00050

POWER FACTOR CHARGE

An additional charge of $.001 per kWh will be added to bills in any month where a lagging or leading power factor, as applicable for such month, of 95% is not maintained. This charge shall increase by an additional $.001 per kWh for each 10% level below that of 95% (i.e., a 70% monthly power factor in either direction would have a $.003 per kWh additional charge). In any month where power factor is both leading and lagging at least 25% of the time, then the Department shall (instead of taking the total kWh netted average) take the lower of the two separate power factor calculations (during lagging and leading times).

DISCOUNT

No discounts apply to this schedule.

BASE RATE ADJUSTMENTS

The base rates shown above will be adjusted, if any, per long term contract. Energy Only Rate is subject to a customer specific energy contract procurement.

TERMS AND CONDITIONS

Bills are due and payable as described in long term contract. Service is governed by the "Rules and Regulations of the Holyoke Gas & Electric Department, City of Holyoke, Massachusetts".

A Renewable Energy charge established by the State Legislature shall be accessed which allows customer's participation in the Massachusetts Renewable Energy Trust. Current rate level which has remained unchanged since January 1, 2003 is shown. This rate is subject to change based upon approval by the State Legislature.
