Annual Natural Gas Heating System Check-Up

Cold weather is just a few months away; plan ahead and get your natural gas fired heating system ready for falling temperatures. This service is available for a \$25* service fee to ensure your system is in optimal condition for the colder months ahead.

Heating System Checkup

An HG&E technician will:

- Perform a system operation check by reviewing venting, safety systems, and burners
- Re-light pilot (if necessary)
- Lubricate circulators

Why Schedule a Heating System Checkup?

Expert Technicians: Our skilled and certified professionals will thoroughly inspect your system.

Preventive Maintenance: Early detection and resolution of potential issues can help prevent costly repairs.

Energy Efficiency: Ensure your heating system is operating efficiently, saving you money on energy bills.

For this service, an appointment must be scheduled by August 29, 2025. Capacity is limited, and services booked after this date cannot be guaranteed for pre-winter scheduling. Any necessary repairs discovered at the time of the inspection may be performed at the customer's option, and will be billed at standard labor and parts rates. Service is for residential natural gas fired boilers and furnaces only.

**The average natural gas heating system check-up requires approximately 30 minutes for a fee of \$25. Depending on the complexity of the system, appointment times can vary. If a technician is required to stay longer than 30 minutes to complete the check-up, the customer may incur additional charges.*

HG&E Service Department

Beyond natural gas heating system checkups, our service department offers a range of maintenance and repair services to keep your home and equipment running smoothly. Our professionals are focused on the repair and maintenance of select natural gas and electric equipment, offering prompt 24-hour emergency service and exceptional customer care.

For more information about our services and rates, please visit: www.hged.com/repair.

RATE COMPARISONS

LOWEST ELECTRIC RATE

June 2025: Residential customer consuming 500 kWh/month. Amounts shown include all discounts and use the fixed default generation supply price.

LOWEST NATURAL GAS RATE

June 2025: Residential customer consuming 33 CCF/month. Amounts shown include all discounts.

HG&E SMARTHUB COMING SOON!

HG&E is excited to announce that on **September 8, 2025**, we will be launching a new comprehensive billing system and account management tool designed to grow with your evolving energy needs. Our new platform, **SmartHub**, is an industry-leading utility management solution trusted by millions of users nationwide offering a web portal as well as a mobile app. With SmartHub, you will enjoy the following:

-  Convenient Billing & Payment Options
-  Energy Consumption Monitoring
-  Alerts & Notifications

Note: Action will be required on September 8 for customers that use on-line account access and/or AutoPay to pay your monthly HG&E bill. We will provide additional information over the next two months.

Visit HG&E's SmartHub support page at hged.com/smarthub for more information.

A message from the Department of Public Works &
Holyoke's Recycling Committee

Recycling Supports our Community
by generating revenue for the city, helping to lower the
overall cost of trash services.
